

## DGK delta Polyclonal Antibody

|                        |                                                                                                                             |
|------------------------|-----------------------------------------------------------------------------------------------------------------------------|
| Catalog No.            | 4084254                                                                                                                     |
| Size                   | 50ug / 100ug                                                                                                                |
| Product Category       | Primary Antibody                                                                                                            |
| Immunogen              | Recombinant fusion protein of human DGK delta                                                                               |
| Clonality              | Polyclonal                                                                                                                  |
| Host                   | Rabbit                                                                                                                      |
| Reactivity             | Human                                                                                                                       |
| Application            | WB                                                                                                                          |
| Recommended Dilutions  | WB (1/500 - 1/2000)                                                                                                         |
| Purification           | Affinity chromatography method                                                                                              |
| Storage Buffer         | 0.42% Potassium phosphate, 0.87% Sodium chloride, pH 7.3, 30% glycerol, and 0.01% sodium azide.                             |
| Format & Concentration | Liquid; 1mg/ml                                                                                                              |
| UniProt ID             | Q16760                                                                                                                      |
| Synonyms               | KIAA0145; Diacylglycerol kinase delta; DAG kinase delta; 130 kDa diacylglycerol kinase; Diglyceride kinase delta; DGK-delta |
| Storage/Stability      | -20°C/1 year                                                                                                                |
| Shipping               | Gel Packs                                                                                                                   |
