

DMEM [High Glucose] (with Double Antibody, L-glutamine, Phenol red, HEPES; w/o Sodium Pyruvate)

DMEM (Dulbecco's Modified Eagle Medium) is a modified Basal Medium Eagle (BME). DMEM contains a higher concentration of amino acids and vitamins as well as additional supplementary components. It is a widely used basal medium for supporting the growth of many different mammalian cells including primary fibroblasts, neurons, glial cells, HUVECs, and smooth muscle cells.

Catalog No.	581003
Size	500mL
Product Category	Cell Culture Media
Storage/Stability	2 ~ 8°C/1 year
Shipping	Ambient
