

RNase A [50U/mg; from bovine pancrease]

RNase A is used for the determination of nucleic acid structure; ribonucleic acid (RNA) sequence analysis; hydrolyzed RNA in protein samples; purified DNA.

CAS No.: 9001-99-4

Enzyme Activity: 50U/mg

Catalog No.	50188021
Size	50mg / 100mg
Product Category	Nucleic Acid Isolation
Storage/Stability	-20°C/1 year
Shipping	Gel Packs
